Mrs. Ethelbert Nevin has founded a scholarship in the music school of the University Settlement for the musical education of one child. It will be called the Ethelbert Nevin fellowship, and will he awarded each year to the child who manifests the greatest musical talent in the settlement. Mrs. Nevin's distinguished husband evidenced a great love for children and especially for the poorer class. He possessed the faculty of not only reading their gentle disthe songs which he wrote for them and which are counted among the daintlest and peculiarly characteristic compositions of American song writers, he seemed to strike a chord which no one before him succeeded in finding, and which later composers have not been able to imitate.

Another acquisition to the coterie of musical people here is Mrs. von Encke, of St. Paul, who was prominent in musical affairs in the latter city. Mrs. von Encke has had a long and varied experience as an oratorio singer and is familiar with the greater part of oratorio music, especially that of Haydn's "The Creation," in which she has interpreted the soprano score many times.
